

Even if I undersand that it is too late to Officially Object to the FCC on the "ATA petition" as a Consumer and a New Jersey Resident. I fully 110% Percent want the Laws kept in place in my State of New Jersey regarding Do-Not-Call. I do not want to be harrassed at home with someone trying to sell something. It is just too bad they are finding it Very Difficult to reach us after these laws were enacted.. after all "We the People" make the laws.. not the American Teleservices Association (ATA). Signed William Weil Feb 13, 2005.
